WHY BRIDGETRUST

Principals who have run the work. More than 30 years of combined executive leadership across government, professional sports, healthcare, higher education, and enterprise organizations, delivered directly by the principals.

A published voice on leadership. Chief Executive Officer Michael Leach is the author of *Faith Over Fear* (HarperOne/HarperCollins), the foundation of keynote and workshop programming delivered for enterprise and public audiences.

Proven on the stage and in the room. Keynotes, moderated conversations, and facilitated leadership sessions that send an audience out aligned on what happens next.

From decision to delivery. Advisory that carries past the recommendation — governance, project leadership, and change management that take a priority through to a result.
